To Whom It May Concern;

This is a letter of recommendation for Rima Numan and The Little Angels School House. My son, Luke, who is almost two, has attended Rima's day care since September of '06. To date, we have had a wonderful experience and most importantly, I believe my son is benefiting from a developmental perspective. He has very good social skills and he is able to communicate very well. Rima has developed learning programs for the children and each day he goes, he comes home with project centered on this learning theme. In addition to caring and loving for these children, Rima is very focused on there development. I can see the benefits of Luke attending this day care when we go to Mommy and me classes or have play dates. Luke is very attentive and participates well with the other children.

I believe Rima takes great pride in establishing a warm, loving and nurturing environment. My son loves to go (unlike previous day care he attended) and I have a hard time getting him to leave. It is a very warm environment and he has made friends and has a lot of fun on the days he goes. This I am sure of!

Rima also does her best to ensure one on one time (with Rima) at drop off and pick up. During this time, I can discuss any issues or just give/receive general feedback on Luke.

Overall, I am very happy and I highly recommend Rima's day care.

Sincerely,
Laura Decker
